

- More stable and reliable, smaller size
- National patent straight line pushing materials device
- Time and Labor saving
- Separate preparation table for hot and cold unit
- Ergonomic design, fully automatic make operation more easier
- Optional Single and double operation

WENLIN-New full auto 7500 New Generation Full Automatic Laminator

Technical Parameters

Model No.	WENLIN-New full auto7500
Control Method	PLC
Platen Size	600mm×750mm
Cooling Method	water cooling
Heating Method	electric heating
Pressure Range	0-16mpa ±0.1mpa
Temperature Range	0-200℃ ± 2℃
Voltage and Power	380V, 50Hz, 73KW
Daylight	10 heating & 10 cooling
Output	About 20000 cards/hour (for reference only)
Machine Dimension	3080 (L) ×2540 (W) × 2285(H)mm

The Picture is only for reference, please make the object as the standard.
